

JENKINS SETUP

Navigate to Manage Jenkins.

The Jenkins Welcome Screen features a black header with the Jenkins logo and name. Below the header is a light green navigation bar with the text 'Jenkins' and a right-pointing arrow. On the left side, there is a vertical menu with icons and labels: 'New Item', 'People', 'Build History', 'Manage Jenkins' (highlighted with a red box), 'My Views', and 'Credentials'. The main area of the screen has a large 'Welcome to Jenkins!' message in bold, followed by a light blue box containing the text 'Please create new jobs to get started.' Below the welcome message, there are two sections: 'Build Queue' and 'Build Executor Status'. The 'Build Queue' section shows 'No builds in the queue.' The 'Build Executor Status' section shows two executors, both in an 'Idle' state.

Navigate to Global Tool Configuration.

The Jenkins 'Manage Jenkins' page has a black header with the Jenkins logo and name. Below the header is a light green navigation bar with the text 'Jenkins' and a right-pointing arrow. On the left side, there is a vertical menu with icons and labels: 'New Item', 'People', 'Build History', 'Manage Jenkins' (highlighted with a red box), 'My Views', and 'Credentials'. The main area of the screen is titled 'Manage Jenkins' and contains a list of configuration options, each with an icon and a description: 'Configure System' (gear icon), 'Configure Global Security' (lock icon), 'Configure Credentials' (key icon), 'Global Tool Configuration' (wrench icon, highlighted with a red box), 'Reload Configuration from Disk' (refresh icon), 'Manage Plugins' (puzzle piece icon), 'System Information' (monitor icon), and 'System Log' (notepad icon). A mouse cursor is visible over the 'Global Tool Configuration' option.

Click Add JDK.

Un-Check Install Automatically and provide the JAVA_HOME Path.

The Jenkins 'Global Tool Configuration' page has a black header with the Jenkins logo and name. Below the header is a light green navigation bar with the text 'Jenkins' and a right-pointing arrow. On the left side, there is a vertical menu with icons and labels: 'New Item', 'People', 'Build History', 'Manage Jenkins' (highlighted with a red box), 'My Views', and 'Credentials'. The main area of the screen is titled 'Global Tool Configuration' and contains a form for configuring tools. The 'Maven Configuration' section has two dropdown menus: 'Default settings provider' (set to 'Use default maven settings') and 'Default global settings provider' (set to 'Use default maven global settings'). The 'JDK' section has a table with the following columns: 'JDK', 'Name', 'JAVA_HOME', 'Install automatically', and 'Delete JDK'. The table contains one row with the following values: 'JDK8u131', 'C:\Program Files\Java\jdk1.8.0_131', and an unchecked checkbox for 'Install automatically'. A mouse cursor is visible over the 'Add JDK' button. Below the table, there is a link to 'List of JDK installations on this system'.

Click Add Maven

Maven

Maven installations

Add Maven

List of Maven installations on this system

Provide Maven Name and MAVEN_HOME Path. [You can choose Install Automatically]

Maven

Maven installations

Maven

Name

MAVEN_3.5.0

MAVEN_HOME

C:\APACHE_MAVEN\

☐ Install automatically

Delete Maven

Save It.

You are done with Global Configuration.
